

THE TOTAL TRANSFORMATION PROGRAM

“I have listened to a lot of parenting programs and read a lot of parenting books in twenty-five years of practice. The Total Transformation Program is different. It's practical, easy to understand, straightforward, user-friendly. This is something parents can actually use.

We now use The Total Transformation in my practice with our families. It shows therapists as well as families, in a step-by-step way, what to do, what to say, what not to do, what not to say to put these parenting tools into effect with children right away. In addition to all the training we get as therapists, we need practical skills. Our clients and families deserve that from us. The Total Transformation gives us a tool that's so effective to help our families even faster.”
